

Project/Website Title:

Theo's Bleg

Introduction:

Theo's Bleg is a play on Randall Munroe's *xkcd Blog*. The website showcases my abilities to use HTML, CSS, and JavaScript to the extent of my current knowledge. It's a "bloggified" version of my project in LIS 115.

Developer:

Name: Theo Rafael S. Aman

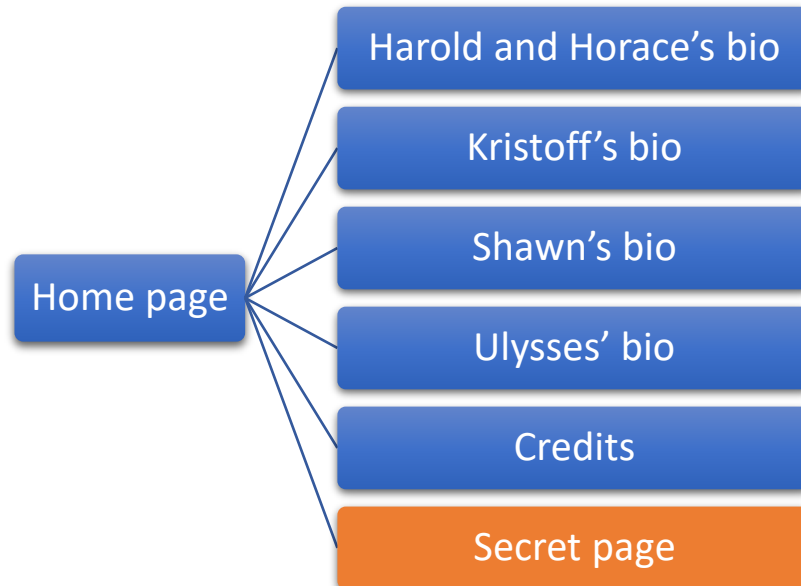

Contact information: trs.aman88@gmail.com

Intended User/Client:

Anyone who wants to have a preview of my HTML, CSS, and JavaScript skills that I have garnered as of September 22, 2017.

Site Design:

I. Site Map

II. Functional requirements

The site uses most of the features of HTML, CSS, and JavaScript that were taught until September 22, 2017. The Credits and Secret page both have prompts that affect some of the content in the embedded page in the home page.

III. Useful links:
